Master Contractors capable of providing the required VLTs and services are invited to submit a response to this RFQ.

1.2 MASTER CONTRACT

In addition to the requirements of this RFQ, Master Contractors are subject to all terms and conditions contained in the Master Contract. This RFQ incorporates all of the terms and conditions of the Master Contract and shall not amend, conflict with or supercede the Master Contract, unless specifically stated herein. All terms defined in Section 1.4 of the Master Contract have the same meanings in this RFQ.

1.3 RESPONSIBILITY FOR REQUEST FOR QUOTATION AND NOTICE TO PROCEED

The Procurement Officer has the sole responsibility for the management of the RFQ process, issuing of a Notice to Proceed ("NTP"), resolution of scope issues, and authorizing any changes.

The Contract Manager has the primary responsibility for the day-to-day management of the work performed under the NTP; administration functions, including issuing written directions; ensuring compliance with the terms and conditions of the Master Contract; and, in conjunction with the selected Master Contractor, achieving on budget/on time/on target completion of the Scope of Work.

All written materials must be in English.

1.6 ORAL PRESENTATIONS

Master Contractors may be required to make an oral presentation to the Commission and its staff in order to clarify their responses. A blanket statement that its entire response is confidential, proprietary commercial information or a trade secret is unacceptable. Responses shall be open to public inspection only after a NTP is issued, to the extent permitted by the PIA. Upon request for this information from a third party, the Procurement Officer is required to make an independent determination whether the information may be disclosed. (See COMAR 21.05.08.01)

SECTION 4 – RFQ/NTP AWARD PROCESS

4.2 TECHNICAL EVALUATION CRITERIA

The following technical criteria, in descending order of importance, will be used to evaluate a response to a RFQ:

- 1) Proposed VLTs and compliance with specifications
- 2) Maintenance Plan/Warranty
- 3) Delivery and Installation Schedule
- 4) Other services proposed

4.3 SELECTION PROCEDURE

4.3.1 The Commission reserves the right to accept or reject any or all responses, in whole or in part, received in response to this RFQ, to waive or permit cure of minor irregularities, and to conduct discussions with Master Contractors in any manner necessary to serve the best interests of the State. This may be followed by submission of revised responses and a BAFO. This request does not commit the Commission to award a NTP. The Commission also has the right, in its sole discretion, to award a NTP based upon the written responses received without prior discussions with respect to those responses.

4.3.2 RFQ responses will be assessed for the quality of responses to Section 3.2.1 of the RFQ. RFQ responses deemed technically qualified will have their price proposal considered. All others will be deemed not reasonably susceptible to award and will receive e-mail notice from the Procurement Officer of not being selected to perform the work.

4.3.3 Qualified RFQ price responses will be reviewed in consideration of the maximum prices set by the Master Contract and the preferred VLTs as specified by the VLT Facility operator.

4.3.4 Upon completion of all Discussions and Best and Final Offers, if any, the most advantageous RFQ response considering the technical and financial submission shall be selected. In making this selection, technical merit has greater weight than price.

4.4 COMMENCEMENT OF WORK PURSUANT TO AN RFQ/NTP

When the Procurement Officer issues a NTP, the selected Master Contractor will be bound by the Master Contract to the contents of the RFQ and its response to the RFQ, including the Price Proposal. Commencement of work in response to an RFQ may occur only upon issuance by the Procurement Officer of a written NTP to the Master Contractor.

ATTACHMENT 1 - MINORITY BUSINESS ENTERPRISE INSTRUCTIONS/FORMS

MARYLAND STATE LOTTERY COMMISSION

PURPOSE

Master Contractor shall structure its procedures for the performance of the work required in this contract to attempt to achieve the Minority Business Enterprise (MBE) goal stated in the Request for Quotation. MBE performance must be in accordance with this Attachment as authorized by Code of Maryland Regulations (COMAR) 21.11.03. Master Contractor agrees to exercise all good faith efforts to carry out the requirements set forth in this Attachment.

FORMS AND SUBMISSION REQUIREMENTS DURING RFQ PROCESS

- ◆ A Master Contractor must submit with its response to an RFQ:

(1) A completed Certified MBE Utilization and Fair Solicitation Affidavit (Form D-1/D-2) whereby the Master Contractor:

a) acknowledges the certified MBE participation goal or requests a waiver, commits to make a good faith effort to achieve the goal, and affirms that MBE subcontractors were treated fairly in the solicitation process; and

b) responds to the expected degree of Minority Business Enterprise participation as stated in the RFQ, by identifying the specific commitment of certified Minority Business Enterprises at the time of submission and specifies the percentage of contract value associated with each MBE subcontractor identified.

Failure to submit Form D-1/D-2 at the time of submittal of the response to an RFQ as required will require the Procurement Officer to determine that the response is not reasonably susceptible of being selected for award.

- ◆ Within ten (10) working days from notification that it is the apparent awardee or from the date of the actual NTP, whichever is earlier, the Master Contractor must provide the following documentation to the Procurement Officer.

(1) Outreach Efforts Compliance Statement (Form D-3)

(2) Subcontractor Project Participation Statement (Form D-4)

(3) If the apparent awardee has requested a waiver (in whole or in part) of the overall MBE goal or of any subgoal as part of the previously submitted Form D-1/D-2, it must submit documentation supporting the waiver request that complies with COMAR 21.11.03.11.

(4) Any other documentation required by the Procurement Officer in connection with the certified MBE participation goal.

Failure to return each completed document within the required time may require the Procurement Officer to determine that the Master Contractor is not responsible and therefore not eligible for NTP award. If the NTP has already been awarded, the NTP is voidable.

CONTRACT ADMINISTRATION AND REPORTING REQUIREMENTS

1. The Master Contractor is responsible for successful completion of all deliverables under the Master Contract and NTP, including its commitment to making a good faith effort to meet the MBE participation goal established for the RFQ/NTP. Part of that effort, as outlined in the RFQ, includes submission of monthly reports to the Commission regarding the previous month's MBE payment activity. Reporting Form D-5 (Master Contractor Paid/Unpaid MBE Invoice Report) and Form D-6 (Subcontractor Paid/Unpaid MBE Invoice Report) are attached for your use and convenience. The Commission will monitor the Master Contractor's efforts to achieve the MBE participation goal and compliance with reporting requirements
2. The Master Contractor shall complete a separate Form D-5 for each MBE subcontractor for each month of the contract and submit one copy to the Commission at the address specified at the bottom of the form. The report is due no later than the 15th of the month following the month that is being reported. For example, the report for January's activity is due no later than the 15th of February. Reports are required to be submitted each month, regardless of whether there was any MBE payment activity for the reporting month.
3. The Master Contractor shall ensure that each subcontractor receives a copy of Form D-6 and that the subcontractor receives all information necessary to complete the form properly (i.e., all of the information located in the upper right corner of the form), which will help to minimize any confusion for those who receive and review the reports. Subcontractor reporting shall be sent directly from the subcontractor to the Commission at the address specified at the bottom of the form.
4. It is the responsibility of the Master Contractor to make sure that all subcontractors submit reports no later than the 15th of each month, regardless of whether there was any MBE payment activity for the reporting month. Actual payment data is verified and entered into the State's financial management tracking system from the subcontractor's Form D-6 report only. Therefore, if subcontractor(s) do not submit their Form D-6 payment reports, the Master Contractor will not receive credit for subcontractor payments. The Master Contractor shall promptly notify the Contract Manager if, during the course of the contract, a new MBE subcontractor is utilized. Failure to comply with the MBE contract provisions and reporting requirements may result in sanctions, as provided by COMAR 21.11.03.13.
5. All MBE reports shall be submitted to the Lottery's MBE Coordinator:

MDOT Certified MBE Utilization and Fair Solicitation Affidavit
(submit with RFQ response)

This document **MUST BE** included with the RFQ response. If the Master Contractor fails to complete and submit this form with the RFQ response as required, the Procurement Officer shall determine that the RFQ response is not reasonably susceptible of being selected for award.

OR

- I conclude that I am unable to achieve the MBE participation goal and/or subgoals. I hereby request a waiver, in whole or in part, of the overall goal and/or subgoals. Within 10 business days of receiving notice that our firm is the apparent awardee, I will submit all required waiver documentation in accordance with COMAR 21.11.03.11.
2. I understand that if I am notified that I am the apparent awardee, I must submit the following additional documentation within 10 working days of receiving notice of the potential award or from the date of conditional award (per COMAR 21.11.03.10), whichever is earlier.
